

QUANTUM ECHO

Series · 13 × 1 hour · two-season arc · IN DEVELOPMENT

LOGLINE

A brilliant young quantum researcher's accidental discovery of a window into alternate realities forces him to confront his own mortality when he meets a disabled version of himself, leading to a moral crisis that threatens the fabric of multiple universes.

THE SERIES

When Dr. Kai Liang's quantum visualization project reveals windows into alternate realities, an equipment malfunction throws him into a world where his counterpart was disabled by childhood polio.

As both versions of Kai work to rebuild the window, they confront their own choices, privileges and the meaning of success, while their collaboration sets off quantum instabilities that force impossible choices about which reality survives.

Audience

Adults 18 to 49; science fiction fans.
